

# Visual Studio Code is a free code editor

The screenshot shows the Visual Studio Code interface with a file explorer on the left, a search bar, and a main editor area. The editor is open to a file named 'README.md' located at 'Volumes > GoogleDrive > My Drive > Teaching > GENOME5XX > website > README.md > ...'. The file content includes a MathJax configuration script and a course description. The status bar at the bottom indicates the current file is 'master\*', the cursor is at 'Ln 14, Col 108', and the file encoding is 'UTF-8'.

```
1 <meta charset="utf-8"/>
2 <script type="text/x-mathjax-config">
3   MathJax.Hub.Config({
4     // Don't process any delimiters, only <script type="math/tex">
5     // tags generated by kramdown from $$...$$ in source.
6     // (Could also avoid loading tex preprocessor – only need
7     // tex input jax – but not worth the trouble.)
8     tex2jax: {
9       inlineMath: [],
10      displayMath: [],
11    }
12  });
13 </script>
14 <script src="https://cdnjs.cloudflare.com/ajax/libs/mathjax/2.7.0/MathJax.js?
15   config=TeX-AMS_HTML"></script>
16
17 ## Course description
18 Programming skills and software tools for building automated bioinformatics pipelines and
19 computational biology analyses. Emphasis on UNIX tools and R libraries for distilling raw
20 sequencing data into interpretable results. This course is aimed at students familiar with
21 UNIX and with some programming experience in python, R, or C/C++.
